RE: Enclosed Long-Range Plan for 1997-2000
DATE: February 5, 1997

As we discussed at our meeting in January, I have worked on our long-range plan for the 1997-2000. Because of the move, we can see less clearly into our future; therefore, our goals are generally short-term and related to the move. Once this is past, we will be re-energized and ready to make true long-range projections for our library and AV services.

Please review these goals and make a copy if you wish. Then initial your name and pass this packet on to the next person on the list. The last person to read this should return the packet to me.

Please don't keep the packet more than 2-3 days! It won't take but a minute to look it over. This means I should have the packet back in my hands, with everyone's initials on it, by March 5, at the latest!
